

COMMERCIAL.

GAZETTE Office, March 9.
The dispatches to Bradstreet's this week
tell of improved feeling in general
and this in spite of a comparatively
large increase in the number of failures
recorded for the week. The cotton situation is
changed save as a somewhat greater faith
in crop figures gives a downward ten-
dency to prices.

There showed a declining tendency up to
yesterday, in consequence of the im-
provement in the weather throughout the
state, and also of the increasing arrivals at
the local markets.

The local markets are firm and quiet in
most instances, except as to hog products,
which continue high. Under the approach
of spring farm products have declined some.

Cotton and Grain.
